SUPPLEMENTAL DRAWING CORRECTION

Dear Sir:

- 1) On October 3, 2001 we submitted a Letter to the Drawing Review Branch with proposed drawing corrections in Figs. 1, 6 and 7. The present submission is a correction of an inadvertent error in revised Figs. 6A, 6B and 6C enclosed with the prior Letter to the Drawing Review Branch dated October 3, 2001.
- 2) In proposed revised Figs. 6A, 6B and 6C submitted on October 3, 2001, the respective transmission percentage values at a wavelength of 500nm were inadvertently crossed out. Namely, Fig. 6A should still show a total transmittance of 99% at 500nm, Fig. 6B should still show a total transmittance of 87% at 500nm, and Fig. 6C should still show a total transmittance of 92% at 500nm. These total transmittance values were shown in the original Fig.

6, but were inadvertently crossed out when submitting the proposed revised Figs. 6A, 6B and 6C.

- 3) In view of the above, please use the enclosed copies of Figs. 6A, 6B and 6C, showing the intended revisions marked thereon, to replace the copies of Figs. 6A, 6B and 6C that were previously submitted with applicants' letter of October 3, 2001.
- 4) The other drawing corrections requested on October 3, 2001 were all correct, and are still being submitted for approval.
- 5) Approval of the proposed drawing corrections is respectfully requested.

Respectfully submitted,

Takao NAKAMURA et al.
Applicant
